

Developing a Goal for Inspiration Use

Here are some questions to think about when developing your goals:

- ✓ What goals would you like to set for yourself in using Inspiration® with your students?
- ✓ How do you expect that student comprehension and critical thinking skills will be affected by the use of Inspiration®?
- ✓ How do your goals correlate with district and state standards?
- ✓ Which subject area(s) will be the focus of your Inspiration® integration?

My Goal for Using Inspiration
